6. INFORMATION TO CONSULTANTS

6.1 INTRODUCTION

1. The consultant must familiarize themselves with local conditions and consider them in preparing their proposals. To obtain first-hand information on the Assignment and on the local conditions, Consultants are encouraged to pay a visit to the Client before submitting a Proposal. The Consultant's representative should contact the officials to arrange for their visit or to obtain additional information.
2. Please note that (i) the costs of preparing the proposal and of negotiating the contract, including a visit to the Client, are not reimbursable as a direct cost of the Assignment; and (ii) the department is not bound to accept any of the Proposals submitted.
3. The Consultants shall provide professional, objective, and impartial advice and always hold the department's interest paramount without any consideration for future work and strictly avoid conflicts with other assignments or their own corporate interest.
4. The Consultant under contracts, observe the highest standard of ethics during the selection and execution of contracts. In pursuance of this,
 - i. Define, for the purposes of this provision, the terms set forth below as follows:
 - a. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution and
 - b. "fraudulent practice" means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of the Borrower, and includes collusive practices among Consultant (prior to or after submission of Proposals) designed to establish prices at artificial, non-competitive levels and to deprive the Borrower of the benefits of free and open competition.
 - ii. will reject a proposal for award if it determines that the firm recommended for award has engaged in corrupt or fraudulent activities in competing for the contract in question.
 - iii. will cancel the portion of the payment allocated to the firm's contract if it at any time determines that corrupt or fraudulent practices were engaged in by representatives of the Consultant during the selection process or the execution of that contract, without the Consultant having taken timely and appropriate action satisfactory to the Client to remedy the situation;
 - iv. will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded a contract if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a contract; and

- v. will have the right to require that, in contract a provision be included requiring Consultants to permit the Client to inspect their accounts and records relating to the performance of the contract and to have them audited by auditors appointed by the Client.
- 5. Consultant shall not be under a declaration of ineligibility for corrupt and fraudulent practices issued by the Client in accordance with the above para.
- 6. The terms / conditions and detailed scope of work with agencies shall be part of the TOR.

6.2 DOCUMENTS COMPRISING THE BID

1. Consultant may request a clarification of any of the BID documents up to the number of days indicated in the Schedule of E-tendering before the Pre-bid conference date. Any request for clarification must be sent in writing by paper mail or electronic mail to the Client's address indicated in the Schedule of E-tendering. The Client will respond by paper mail or electronic mail to such requests and will send copies of the response to all invited Consultants who intend to submit proposals.
2. At any time before the submission of proposals, the Client may, for any reason, whether at its own initiative or in response to a clarification requested by a invited firm, modify the BID documents by amendment. Any amendment shall be issued in writing through addenda. Addenda shall be done online only and will be binding on them, and it will become part of the tender document. The Client may at its discretion extend the deadline for the submission of Proposals.

6.3 PREPARATION OF PROPOSALS

Consultants are requested to submit a Proposal written in English language.

In preparing the Technical Proposal, Consultants are expected to examine the documents comprising this BID in detail. Material deficiencies in providing the information requested may result in rejection of a Proposal.

6.3.1 Eligibility and Technical Proposal

1. While preparing the Eligibility and Technical Proposal, Consultants must give particular attention to the following:
 - i) The experience of the Consultant shall be limited to the projects for which the Consultant has rendered the services individually or corporate entity. In case of claiming an experience of consortium as one of the major companies within an association a legal contract documents for the assignment carried out in recent past shall have to be furnished. The fresh consortium or joint venture will not be considered. The assignment carried out by individual staff member or any associates prior to joining the firm of consultant cannot be called as the experience of the firm and the CV of that individual staff member or any associates will not be considered for

eligibility / qualification of this contract.

- ii) Reports to be issued by the Consultants as part of this assignment must be in the language(s) specified in special condition of contract. It is desirable that the firm's personnel have a working knowledge of the client's national language/state language.
2. The Eligibility and Technical proposal should provide the requisite information in detail with due elaboration else the bid offer shall be treated non-responsive.
3. It is advised that the tenderer or his authorized representative remain present at the time of opening the technical bid.
4. Bidder must note that financial bid is to be submitted in conformity of requirement laid down in TOR/BID only. No financial implication arising out of modification proposed by bidder shall be loaded in to price bid.
5. However, all intending bidders are requested to offer modification in TOR/BID during pre-bid meeting. Any such modification suggested by one or more bidder and if found acceptable by department shall be intimated to all bidders and put up on (n)-procure web site as addendum and/or corrigendum and bidders shall bear these addenda/corrigendum in mind while submitting their price bid.
6. In preparing the Financial Proposal, Consultants are expected to consider the requirements and conditions of the BID documents. The Financial Proposal should include costs associated with the Assignment, including (a) remuneration for staff (foreign and local, in the field and at headquarters), and (b) reimbursable such as subsistence (per diem, housing), transportation (international and local, for mobilization and demobilization), services and equipment (vehicles, office equipment, furniture, and supplies), office rent, insurance, printing of documents, surveys; and training, and all allied activities, material consumption etc and any other expenses required for the performance of the scope of work narrated in TOR.
7. The Financial Proposal shall be excluding of GST, and including of all other type of taxes, duties, fees, levies, and other impositions imposed under the applicable law, on the consultants, the sub-consultants, and their personnel.
8. Payment of GST (at prevailing rates) on the amount payable under the contract to the will be made by the Employer. Hence, it is the responsibility of the consultant to pay the GST to the concerned Authority.
9. Consultant shall express the price of their services in the currency of Indian Rupee only.
10. Commissions and gratuities, if any, paid or to be paid by consultants and related to the Assignment will be borne by the Consultant.
11. Costs shall be fixed for the consultancy work. Amounts are to be quoted in figures and in words. The rates in words shall be governing in the event of a discrepancy between figures and words.

12. All costs and rates quoted shall be fixed for the consultancy work. Agreement, except as otherwise provided for therein.

13. Any costs not entered shall not be payable, except as otherwise provided for in the contract agreement.

6.3.2 Financial Proposal:

1. The financial proposal shall be quoted as a firm and fixed consultancy services etc. in accordance with the scope of work narrated in the TOR.

Not later than thirty (30) days after the award of work, as the result of an event of Force Majeure, have become unable to perform a material portion of the services, the parties shall consult with each other with a view to agreeing on appropriate measures to be taken in the circumstances.

8.3.1.8 Suspension

The Engineer in Charge may by written notice of suspension to the consultant suspend all payments to the consultant hereunder if the consultant fail to perform any of their obligation

under this contract, including the carrying out of the services provided that such notice of suspension (i) shall specify the nature of the failure and (ii) request the consultant to remedy such failure within the period not exceeding thirty (30) days after the consultant of such notice of suspension.

8.3.1.9 Termination:

8.3.1.9.1 By the Client:

The Client may terminate this Contract, by not less than thirty (30) day's written notice of termination to the consultant, to be given after the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause and sixty (60) days' in the case of the event referred to in (e) :

- (a) If the Consultants fail to remedy in the performance of their obligations under the Contract, within thirty (30) days of receipt after being notified or within such further period as the Client may have subsequently approved in writing.
- (b) If the Consultants become insolvent or bankrupt;
- (c) If, as the result of Force Majeure, the Consultants are unable to perform a material portion of the Services for a period of not less than sixty (60) days; or
- (d) If the Consultant, in the judgment of the Client has engaged in corrupt or fraudulent practices in competing for or
 - In executing the Contract.
 - For the purpose of this clause:
 - "Corrupt practice" means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution.
 - "fraudulent practice" means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Consultant (Prior to or after submission of proposals) designed to establish prices at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition.
- (e) If the Client, in its sole discretion and for any reason whatsoever, decides to terminate this Contract.

8.3.1.9.1.1 Cessation of rights and obligations:

Upon termination of this contract pursuant to above Para no. 8.3.1.9.1 hereof, or upon expiration of this contract to Para no. 8.3.1.3 hereof, all rights and obligations of the Parties hereunder shall cease, except:

- i. Such rights and obligation as may have accrued on the date of termination or

expiration.

- ii. The obligation of confidentiality set forth in contract 8.4.4 hereof;
- iii. Any right which a party may have under the applicable law.

8.3.1.9.1.2 Cessation of Services:

Upon termination of the contract by notice pursuant to Para no. 8.3.1.9.1 hereof, the consultant shall, immediately upon dispatch or receipt of such notice, take all necessary steps to bring the services to a close in a prompt and orderly manner and shall make every reasonable effort to keep expenditures for this purpose to a minimum. With respect to documents prepared by the consultants and equipment and materials furnished by the Engineer in Charge, the consultant shall proceed as provided, respectively.

8.3.1.9.1.3 Payment upon Termination:

Upon termination of the contract pursuant to Para no. 8.3.1.9.1 hereof, the client shall, make the payments corresponding to respective stages of payment – as specified in the Chapter 10 Schedule of Payment for the rendered services and on satisfaction of client.

8.3.1.9.1.4 Forfeiture of Security Deposit upon termination of contract:

In case, the agreement of consultant is terminated due to the default of the consultant, his Security Deposit (deducted up to that stage) shall be forfeited which shall be absolutely at the disposal of the Government.

8.3.1.9.1.5 Disputes about events of Termination:

In the consultant disputes whether as event specified in Paragraphs (a) through (e) of Para no. 8.3.1.9.1 hereof has occurred, he may, within 60 days after receipt of notice of termination from the client, refer the matter to arbitration pursuant to Para no. 8.8 hereof and this contract shall not be terminated on account of such event except in accordance with the terms of any resulting arbitral award.

8.3.1.9.2 By the Consultants:

The Consultants may terminate this contract, by not less than thirty (30) days written notice to the Client, such notice to be given after the occurrence of any of the events specified in paragraphs (a) and (b) of this clause.

- (a) If the Client fails to pay any money due to the Consultants pursuant to this Contract and not subject to dispute pursuant to Clause – 8.8 hereof within forty-five (45) days after receiving written notice from the Consultants that such payment is overdue; or
- (b) If, as the result of Force Majeure, the Consultants are unable to perform a material portion of the Services for a period of not less than sixty (60) days.

8.3.1.9.3 Payment upon Termination.

Upon termination of this Contract pursuant to Clause 8.3.1.9.1 or 8.3.1.9.2, the Client shall make the following payments to the Consultants.

- (a) Remuneration pursuant to Clause 8.7 for services satisfactorily performed prior to the effective date of termination;
- (b) Except in the case of termination pursuant to paragraphs (a) and (b) Clause 8.3.1.9.1, reimbursement of any reasonable cost incident to the prompt and orderly termination of the Contract.

8.3.1.9.4 Penalties (Limitation of Liability)

The Consultant shall carry out the Consulting engineering service in conformity with general accepted norms and sound standard of engineering. The Consultant shall be responsible for technical soundness of the service rendered. N.W.R.W.S & K.D may review, monitor, and check the works carried out by the consultant. If such checks disclose that the works carried out by the consultant do not meet the specified requirements, N.W.R.W.S & K.D. may not pay the consultancy fees for their affected portion. In the event of any deficiency in these services, the consultant shall interlay promptly re-do such engineering services at no additional cost to N.W.R.W.S & K.D. In addition, N.W.R.W.S & K.D. may impose a penalty limited to 10% of the consultancy fees of the portion affected and without entitlement to payment for further fees in this respect, for the affected portion.

8.4 OBLIGATIONS OF THE CONSULTANTS:**8.4.1 General:**

The Consultants shall perform the Services and carry out their obligations hereunder with all due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices. The Consultants shall always act, in respect of any matter relating to this contract or to the Services, as faithful advisers to the Client, and shall at all times support and safeguard the Client's legitimate interests in any dealings with sub-Consultants or third parties.

8.4.2 Law Governing Services:

The consultant shall perform the services in accordance with the applicable law and shall take all practicable steps to ensure that any personnel and agents of the consultants comply with the applicable law. If required the client shall advise the consultants in writing of relevant local customs and the consultants shall, after such notifications, respect such customs.

8.4.3 Conflict of Interests:**8.4.3.1 Consultants Not to Benefit from Commissions, Discounts, etc.**

The remuneration of the Consultants shall constitute the Consultant's sole remuneration in connection with this Contract or the Services, and the Consultants shall not accept for their own benefit any trade commission, discount or similar payment in connection with activities

pursuant to this contract or to the Services or in the discharge of their obligations under the Contract, and the Consultants shall use their best efforts to ensure that the Personnel, any Sub-Consultants, and agents of either of them, similarly shall not receive any such additional remuneration.

8.4.3.2 Consultants and Affiliates Not to Be Otherwise Interested in Project

The Consultants agree that, during the term of this contract and after its termination, the Consultants and their affiliates, as well as any sub-Consultant and any of its affiliates, shall be disqualified from providing goods, works or services (other than the Services and any continuation thereof) for any project resulting from or closely related to the Services.

8.4.3.3 Prohibition of Conflicting Activities:

Neither the Consultants nor their Sub-Consultants nor the Personnel shall engage, either directly or indirectly, in any of the following activities.

- (a) during the term of this Contract, any business or professional activities in the Government's country which would conflict with the activities assigned to them under this contract; or
- (b) After the termination of this contract, such other activities as may be specified in the SC.

8.4.4 Confidentiality:

The Consultants, their Sub-Consultants, and the Personnel of either of them shall not, either during the term or within two (2) years after the expiration of this Contract, disclose any proprietary or confidential information relating to the Project, the Services, this Contract, or the Client's business or operations without the prior written consent of the Client.

8.4.5 Insurance to Be taken out by the Consultants:

The consultant shall be responsible to arrange for insurance of all manpower engaged, all the infrastructure and resources engaged by him and Third Party Insurance as the case may be, for this work, without limiting his or the Employer's obligations and responsibilities.

Any amounts not insured or not recovered from the insurers shall be borne by the Consultant.

The Consultant shall also, except if and so far as the Contract provides otherwise, indemnify the Employer against all losses and claims in respect of:

- a. Death of or injury to any person, or,
- b. Loss of or damage to any property

Which may arise out of in consequent of the performance of this contract and the remedying of any defects therein, and against all claim's proceedings, damages, costs, charges, and expenses whatsoever in respect thereof or in relation thereto.

The department shall not be liable for or in respect of any damages or compensation payable to any workmen or other person in the employment of the Consultant or any Sub consultant. The Consultant shall indemnify and keep indemnified the employer against all such damages and compensation, and against all claims, proceedings, damages, costs, charges, and expenses whatsoever in respect thereof or in relation thereto.

In the event that the consultant fails to comply with the above provisions, the Engineer-in-charge shall take necessary actions to get the insurance with the above coverage and all the costs thereof shall be recovered from the amount payable to the consultant.

8.4.6 Consultant's Actions Requiring Client's Prior Approval

The Consultants shall obtain the Client's prior approval in writing before taking any of the following actions;

- (a) entering a subcontract for the performance of any part of the Services,
- (b) appointing such members of the Personnel not listed by name in this bid document ("Key Personnel and Sub-Consultants"), and
- (c) Any other action that may be specified in the SC.

8.4.7 Reporting obligations:

The Consultants shall submit to the Client the reports and documents specified as following:

Sr. No.	Name of activity	Timeline of activity
1	Topographic survey, TBM and centreline stone fixing, Soil investigation (drilling and trial pits), Feasibility report and detailed project for administrative approvals (For Big Checkdams and Protection Works)	Within 3 months after work order
2	Detailed design and detailed cost estimate for Technical Sanction (For all Big Checkdams and Protection Works)	Within 9 months after work order
3	Draft tender paper with detailed specifications (For all Big Checkdams and Protection Works)	Within 11 months after work order

8.5 OBLIGATIONS OF THE CLIENT:

8.5.1 Assistance and Exemptions:

The Client shall use its best efforts to ensure that the Government shall provide the Consultants such assistance and exemptions as specified in the SC.

8.5.2 Services and Facilities:

The department will help in coordination site visits and any clarification sought by consultant, before the Proposals are submitted. Client will also provide other facilities mentioned in Para 7.6.

8.6 PAYMENTS TO THE CONSULTANTS:

8.6.1 Remuneration:

The Consultant's total remuneration shall be made for the actual quantity executed for the item listed in Schedule B. The actually executed quantities for topographical survey, drilling and trial pit, preparing and submission of designing and estimation for detailed technical sanction, preparing and submission of draft tender paper shall be paid and no revisions in rate for excess / saving in quantities for these items shall be entertained, payment shall be made as per the finally accepted contract price.

The price offer for the all schedule B items shall be including all staff costs, sub-Consultants' costs, printing, communications, travel, accommodation, and the like, and all other costs incurred by the Consultant in carrying out the Services described in this bid document.

8.6.2 Contract Price:

The price payable in local currency is set forth in the SC.

8.6.3 Terms and Conditions of Payment:

Payments will be made to the account of the Consultants and according to the payment schedule stated in the S.C. Any other payment shall be made after the conditions listed in the SC for such payment have been met, and the Consultants have submitted an invoice to the Client specifying the amount due.

8.6.4 SECURITY DEPOSIT

8.6.4.1 PERFORMANCE SECURITY

(A) Within 10 (Ten) days of receipt of Letter of Acceptance, the successful Bidder shall furnish to the Employer an irrevocable and unconditional guarantee from a Bank in the form set forth in [form-16](#) (the "Performance Security") for an amount equal to 5% (five percent) of its Contract Price. In case of bids mentioned below, the successful Bidder, along with the Performance Security, shall also furnish to the Authority an irrevocable and unconditional guarantee from a Bank in the same form given at form 16 towards an Additional Performance Security (The "Additional Performance Security") for an amount calculated as under:

- (a) If the Contract Price offered by the Selected Bidder is lower than 10% but upto 20% of the Estimated Project Cost, then the Additional Performance Security shall be calculated @ 20% of the difference in the (i) Estimated Project Cost (as mentioned in Bid Document) - Minus 10% of the Estimated Project Cost and (ii) Contract Price offered by the selected Bidder.
- (b) If the Contract Price offered by the Selected Bidder is lower than 20% of the Estimated Project Cost, then the Additional Performance Security shall be calculated @ 30% of the difference in the (i) Estimated Project Cost (as mentioned in Bid Document) - Minus 10% of the Estimated Project Cost and (ii) Contract Price offered by the selected Bidder.

- (c) This Additional Performance Security shall be treated as part of the Performance Security.
- (B) The Performance Security shall be valid beyond 12 months of the actual project completion date. and the Additional Performance Security shall be valid beyond 28 (twenty-eight) days of Project Completion Date.
- (C) If the performance security is provided by the successful Bidder in the form of a Bank Guarantee, it shall be issued either (a) at the Bidder's option, by a Nationalized/Scheduled Indian bank or (b) by a foreign bank located in India and acceptable to the Employer. As per GoG Finance Department's Circular No. FD/MSM/e-file/4/2023/0057/D.M.O. Date 21/04/2023 or as per their latest amendment.
- (D) Failure of the successful Bidder to comply with the requirement of Sub-Clause 8.6.4.1 shall constitute sufficient grounds for cancellation of the award and forfeiture of the Bid Security.

8.6.4.2 RETENTION MONEY

- (A) The Employer shall retain from each payment to Consultant shall be 6% from each bill subject to a maximum of 5% of final contract price until Completion of the whole of the Works.
- (B) On Completion of the whole of the Works half the total amount retained is repaid to the Consultant and half when the Defects Liability Period has passed and the Engineer has certified that all Defects notified by the Engineer to the Consultant before the end of this period have been corrected.
- (C) On completion of the whole works, the Consultant may substitute retention money with an "on demand" Bank guarantee.
- (D) In case, Consultant requests for refund of the Retention Money deducted by the Employer under the provision of this clause, Employer shall consider the said request of the Consultant provided that the refund hereunder shall be made in tranches of not less than 1% (One Percent) of the Contract Price and Consultant furnishes an irrevocable and unconditional Bank guarantee for an equal amount substantially in the format of Bank Guarantee for Performance Guarantee enclosed with Form-16 of this tender and valid up to 12 months after actual completion date. On completion of the whole works, the Consultant has however an option to submit a fresh irrevocable and unconditional Bank Guarantee for an amount equal to 5% of the total value of work executed substantially in the format of Bank Guarantee for Performance Guarantee enclosed with Form-16 of this tender and valid up to 12 months of actual completion date and yet refund the Retention Money Bank Guarantee submitted for refund of Retention Money.

8.7 SETTLEMENT OF DISPUTES:

The rules of procedure for ad hoc arbitration proceedings shall be as follows.

APPEAL TO CHIEF ENGINEER

Chief Engineer (Panchayat) and additional Secretary Narmada Water Resources, Water Supply and Kalpsar Department (being referred as Chief Engineer thereafter)

All disputes, controversies, or claims between the parties which cannot be mutually resolved shall be referred to Chief Engineer for amicable settlement. After hearing both the parties, the Chief Engineer will give reasoned award within 45 days from the date of receipt of appeal by the aggrieved party.

ARBITRATION

Any party is aggrieved by award of Chief Engineer may make a further reference for setting aside or revision of the award for settlement of dispute, within 90 days from the date of receipt of such award (or) if no award accorded by the Chief Engineer within stipulated time, to the Statutory Arbitration Tribunal constituted under the provision of Gujarat public works contract disputes arbitration tribunal Act 1992, Gujarat State.

The reference to the Chief Engineer or to the Arbitration Tribunal under this clause shall not entitle to the consultant to stop the progress of work.

All matters relating to this contract are subject to the exclusive jurisdiction of the Courts situated in the State of Gujarat and the language of the arbitration proceedings and that of all documents and communications between the parties shall be English.

8.8 SPECIAL CONDITIONS OF CONTRACT

8.8.1 The Language is: English

8.8.2 The Consultant

8.8.2.1 For domestic Consultants/personnel and foreign Consultants/personnel who are permanent residents in India.

The Consultants and the personnel shall pay the taxes, duties; fees, levies and other impositions levied under the existing, amended or enacted laws during life of this contract and the client shall perform such duties in regard to the deduction of such tax as may be lawfully imposed.

8.8.2.2 For foreign Consultants/personnel:

The client warrants that the client shall pay on behalf of the Consultants and the Personnel any taxes, duties, fees, levies and other impositions imposed, under the Applicable Law, on the Consultants and the Personnel in respect of:

- (a) any payments made to the Consultants, Sub-Consultants, and the Personnel of either of them (other than Indian nationals or foreign nationals now permanently residing in India), in connection with the carrying out of the Services;
- (b) any equipment, materials and supplies brought into India by the Consultants or Sub-Consultants for the purpose of carrying out the Services and which, after having been brought into such territories, will be subsequently withdrawn therefore by them;

- (c) any equipment imported for the purpose of carrying out the Services and paid for out of funds provided by the client and which is treated as property of the client;
- (d) any property brought into India by the Consultants, any Sub-Consultants, and the Personnel of either of them (other than Indian national or permanent residents of India), or the eligible dependents of such personnel for their personal use and which will subsequently be withdrawn therefore by them upon their respective departure from India, provided that;
 - (1) the Consultants, sub-Consultants and Personnel, and their eligible dependents, shall follow the usual customs procedure of the Government in importing property into India; and
 - (2) If the Consultants, Sub-Consultants or personnel, or their eligible dependents, do not withdraw but dispose of any property in India upon which customs duties and taxes have been exempted, the Consultants, Sub-Consultants or Personnel, as the case may be,
 - i) Shall bear such customs duties and taxes in conformity with the regulations of the Government.
 - or
 - ii) Shall reimburse them to the client if they were paid by the client at the time the property in question was brought into the Government's country.]

8.8.3 Commencement of Contract

8.8.3.1 The date on which this Contract shall come into effect is: The date of receiving letter of intent.

8.8.3.2 The date for commencement of services is from date of agreement.

8.8.4 The period shall be the period of this agreement.

8.8.5 Payment Schedule as per Chapter - 10 and the payment shall be made based on availability of funds with the department.

10.13 Form 13 - Under taking for Engaging Technical Staff (to be submitted online)

I/We

..... Age.....Business.....,
Residence of (With Full Address), hereby declare on oath of
God, that if our offer for the work of “**PROVIDING CONSULTANCY SERVICES FOR 09 NOS OF BIG
CHECKDAMS IN VARIOUS VILLAGES OF MANDVI TALUKA OF KACHCHH DISTRICT (FOR YEAR 2025-26)
PACKAGE-2** ” is accepted by the competent authority & Awarded to us, I/We will engage & employ the
technical staff, required as per provision made in tender agreement. All technical staff will remain
present during the work is continued.

Date: -

10.14 Form 14 - LETTER FOR TECHNICAL BID (to be submitted online)

To,
The Executive Engineer,
Kachchh Irrigation Construction Division,
Bhuj-Kachchh.

Subject: "Technical Bid" For the work of **PROVIDING CONSULTANCY SERVICES FOR 09 NOS OF BIG CHECKDAMS IN VARIOUS VILLAGES OF MANDVI TALUKA OF KACHCHH DISTRICT (FOR YEAR 2025-26) PACKAGE-2 .**

With reference to above subject, it is to submit that we have carefully examine the Drawings, Conditions and Specification of work and fully acquainted with all details of the site, Quarry site of materials, Geology and Hydrological condition and weather characteristics, position with regards to labour and all other such necessary information

1.0 I / We hereby state that there is not any other condition/deviation under Technical Bids.

OR

2.0 I / We are submitting Technical deviations (along with necessary calculations/financial implications) as attached herewith.

(Signature of Bidder)

10.15 Form 15 - Form of Performance Bond

(The date of this bond must not be prior to the date of the instrument in connection with which it is given.)

_____Principal (Consultant)

_____Surety (Scheduled or Nationalized Bank)

_____Sum of bond (express in words and figures)

_____Contract No. and date of contract

_____KNOW ALL MEN BY THESE PRESENTS, THAT WE, THE PRINCIPALS, AND SURETY

Above named are held and firmly bound up to the _____ hereinafter called the Employer in the amount state for payment of which sum, well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors jointly and severally, firmly by these presents subject to the provisions of which the aforesaid consultant on demand and without demand on a claim being made the Employer.

THE CONDITION OF THIS OBLIGATION IS SUCH, that whereas the principals have entered in to a contract with the Employer numbered and dates as shown above and hereto attached for the execution of work

.....
.....

NOW THEREFORE, if the Principal shall well and truly perform and fulfil all the undertakings, covenants, terms, conditions and agreements of said contract during the original terms of the said consultant and any extensions thereof that may be granted by the Employer with or without notice to the surety and during the life or any guarantee required under the contract and shall also well and truly perform and fulfil all the Undertakings, covenants, terms, conditions and agreements of any all duty and unduly authorized modifications of said Contract that may hereafter be made, notice of which modifications to the surety being hereby waived or shall pay over, make good and reimburse to the Employer all loss and damages which the employer may sustain by reason of failure or default on the part of said Principal so to do.

We..... further agree that the guarantee herein Contained shall remain in full force and effect during the period that would be taken for the validity up to the project commissioning, and that it shall continue to be enforceable till all the dues of the employer under or by virtue of the Contract have been fully paid and its claims satisfied or discharged or till the Employer certifies that the terms and conditions of the Contract have been fully and properly carried out by the said consultant and accordingly discharges the guarantee. Unless a demand of claim under this guarantee is made on us in writing on or before the _____ we shall be discharged from all liability under this guarantee thereafter.

IN WITNESS WHERE OF, the above bounded parties have executed this instrument under their several seals on the date indicated above the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

Signature of the Executive Engineer:

10.17 Item wise details specification

Item No. 1.

Hiring for JCB-80- (for Site Cleaning and Trial Pit Work)

The work shall consist of covering machineries, labour and fuel with whole cost for complete item of maintenance work.

item include JCB to be used for site clearance, approach road preparation for drilling or survey work and trial pit work whenever required or as per instruction by engineer-in-charge.

The machineries like JCB, excavator, loaders etc. providing on site should have valid RTO registration certificate, PUC, Trained operator etc and of ISI mark and std. brand and sufficient capacity and in good working condition.

The fuel & diesel should be in sufficient qty. for working hour of whole day and experience driver and labours should be provided for whole day.

All documents regarding to RTO such as passing of vehicles, insurance, RC book etc. are latest and licensed for drivers/ operators should be required.

Any problems related to repairing/maintenance etc required in machineries occurred during work, should be solved by agency at his own risk and cost. The department will not be any responsibility for any type of problem created during work.

Agency has bound to pay taxes to Gujarat and Central Govt. pertains to this work.

Unit of rate includes the cost of all materials, Labour, consumables etc and tools as directed by Engineer-in-charge.

The mode of measurement shall be in Hours including the cost of all materials, labour, equipment and tools as directed by Engineer-in-charge.

Item No. 2.

Survey by using own DGPS instrument for the topographical and contour survey work in 30x30 mt grid with 0.5mt contour interval, locating all existing features with preparation and submission of survey drawing in AO size sheet in one Hard & soft copy etc complete.

Detailed technical specification

Carrying out Survey investigation by D.G.P.S. with reference to GTS in entire work site in on field survey grid of 30 x 30 mt. in the area as instructed by Engineer in- charge.

Reconnaissance survey for finalizing most suitable alignment for each Big Checkdams / Bandhara / Medium Irrigation / Minor Irrigation / Protection Works of Mandvi Taluka of Kachchh District of Gujarat State. The most suitable for each schemes should be marked on SOI Maps, village map sheet. Cost of SOI maps, village map, Google map sheet shall be borne by the consultant.

The Survey should be based on the nearest BM of SOI/Railway BM or as suggested by Department within maximum 50 kms range and cost of such shifting of Benchmark shall not be paid separately and shall deemed to be included in the offered price.

The project area (Area of construction of dams and allied parts and submergence area) shall be surveyed by using own DGPS instrument for the topographical and contour survey work in 30 x30 mt. grid with 0.5mt contour interval, locating all existing features with preparation and submission of survey drawing in AO size sheet in one soft copy and 05 hard copy, etc. complete at each & every approval stage of work. This shall be detailed SOI maps & village maps.

Survey by DGPS (or more advance survey machine/ Technique) including measuring of alignment of earthen Dam/river and creating cross-section and longitudinal section profile at 30 m interval /or closer as directed. Such survey work shall be carried out for 150 m distance or more, on both sides.

Cross section of the main over flow section dam alignment should be 5 meter distance or as instruction by Engineer- In – Charge.

The liner survey for dam alignment, canal alignment/pipeline alignment, etc. as well other contour survey for submergence area or other areas as directed by department etc. shall be converted in to hector area for payment purposes.

The outcome of survey work shall be submitted in form of final report in five copies (as per the size of drawing suggested by EIC). And soft copy as instructed by EIC

The agency shall have to make necessary site clearance for carrying out the survey work of the site of work as directed by Engineer-in-charge.

There should be verification of alignment / Ls /Cs from TBM for Big Checkdams / Bandhara / Medium Irrigation / Minor Irrigation / Protection Works /storage tank work at various stages of actual construction work/ approval to be provided without any extra charges whenever required as per instruction by engineer-in-charge.

Existing structure should be mark on contour maps.

The work shall also be carried out in all-weather condition and all types of terrain. the item includes to provide the high-resolution photography and videography of execution of this item.

Mode of measurement & Payment

Rate shall be paid per hectare bases i.e. area of outer most contour of levelling and survey done and after submission of plotted contour map / sheet photos.

rate also includes Cross section provided at 30 mt. interval. The final report shall be submitted in five copies and editable soft copy (AutoCAD, Excel/Word).

Rate also includes necessary site clearance, instruments, transportation of man and machine / instrument to the site of work.

Item No. 3.

Providing & fixing Guard stone of Precast C.C. M-15 I.R.C. standard & design 75X20X20 Cm. including white washing etc complete. (a) In Earth

The guard stone shall be in concrete M-15 of 20 cm x 20 cm. size and its length shall not be less than 75 cms. The top portion shall be rounded. The size shape and dimensions of the guard stone shall be exact and shall be neatly dressed and finished.

The guard stone shall be fixed in position as directed by the Engineer in charge in excavation of trench size 40 cm. x 35 cm. x 45 cm. filled with C.C. 1:4:8 The exposed part of the guard stones shall be given three coats of white wash. Any excavation necessary for fixing to the guard stones shall be done by the Consultant at his own cost. the measurement for payment shall be per number of guard stone fixed in position.

Unite rate of guard stone includes the cost of all materials, labours, tools, fixing and white washing as directed by the Engineer in charge.

Fixing in C.C. 1:4:8

Specification same as above expect that the guard stone shall be fixed in C.C. 1:4:8 which will consist of one part of cement, four part of good sand and eight parts of good brick bats. Rate includes all labour and curing etc. necessary for concrete.

Guard stone are to be used for demarcation of dam alignment, spillway, head regulator and any other allied components with fixing at least two nos. of guard stones.

fixing Centre line stone (also as TBM stone) indicating chainage marked on it every 50m interval (or closer at apex points) or as per instruction from Engineer-in-charge

TBM/Centreline stone should be dressed stone/ RCC Cast pillar with size of 15x15x45cm.

Chainage & R.L. Should be marked on the top of the stone as directed by EIC

Measurement & Payment

Payment shall be made on No. basis for the work actually completed.

Item No.4

Carrying out soil investigation by drilling of 100 mm dia bore hole in all types of Rock strata in dry and wet conditions wherever it is necessary, demarcation dam alignment by suitable required type of Hydraulic feed diamond core drilling with non- vibrating triple tube core barrel in foundation for obtaining Nx size cores with heavy duty hydraulic diamond core drilling rigs & high pressure water pumps, lowering casing pipe of suitable size & length in collapsible formation for in-situ testing etc. for that strata including performing standard penetration test, and Packer permeability test as per IS 5529-2(2006) including preparing and supplying samples at GERI / Govt. approved lab as per instruction of EIC including providing Geological report, lithological log and "L" type geological cross section of alignment with geological log sheet of each trial bore etc as instructed by Geologist to be prepared in AutoCAD Software as per prescribed Performa.

Carrying out soil investigation by drilling of 100 mm dia. bore hole in all types of strata in dry and wet conditions with necessary machinery (triple core tube as suggested by geologist) sites clearing of grass and trees wherever it is necessary, demarcation dam alignment with fixing two nos. of guard stones at both banks by suitable required type of rig machine for that strata to carried out megascopic and microscopic petrographic test including performing necessary field test and other in situ testing as well as collecting disturbed/undisturbed soil samples for the necessary laboratory test including supplying samples at GERI Gandhinagar / Vadodara and other Government approved laboratories including receiving the results from concern authorities and providing lithological log and "L" type geological cross section of alignment with geological log sheet of each trial bore etc. complete including sampling for rock testing

Geological survey and investigation include soil/ rock drilling and testing to determine the engineering properties of the catchment area of the scheme and the strata below the various components of the scheme (e.g. Dam/CD/ spillway, head regulator, canal and any other allied components covering Annexure-2). It also includes study of the locally available construction materials for the projects.

The consultant shall complete drilling, sampling procedure for the detailed geological investigation as per Annexure 2 (but not limited to) and as per instruction of Engineer in Charge.

Trial pits, trenches and quarry exploration shall be done in all sorts of soil including yellow, sandy and gravelly soil, soft murrum including uniform layers as and where directed etc. complete (without dewatering). The size of trail pits may be as per as per IS code 4453-2009 (The top of the pit is usually a square of size 3.00 M x 3.00 M and its bottom is also a square of 1.20 M x 1.20 M providing sufficient space) or so as directed by EIC. Measurements for actually work done by JCB per hour basis for excavated pits as per rates mentions in the price bid item no.1

The type of drilling machinery of triple core tube (item no.4) or hydraulic feed diamond core drilling machine (item no.5) as per site suggested by departmental geologist. Drilling activity should be started after conformation of main dam alignment by Engineer-In-Charge and type of drilling machinery by Departmental geologist.

The cost for collection and supplying all the samples at GERI Gandhinagar/ Vadodara and other Government approved laboratories shall also be included in the price offer and shall not be paid separately.

The payment of borehole drilling and sample collection for soil testing for detailed geological investigation is included in this bid.

The payments toward testing charges of all such collected samples for detailed geological investigation shall be made by the department and paid separately to the GERI/Soil testing laboratory and cost toward the same shall not be included in the price bid.

For drilling in rock, the diamond-drilling bit is to be used with Triple tube

In addition to rock sample collection the in situ permeability test also to be conducted as per the IS: 5529-2 (2006)

Drilling sequence for drilling in Rock

0.0 to 1.5m drilling core recovery

0.0 to 1.5m in-situ permeability test

1.5 to 3.0m drilling core recovery

1.5 to 3.0m in-situ permeability test

3.0m to upto drilled depth

In situ Permeability test every 1.5m depth slab as per strata condition

Scope of work for Drilling in Rock

The use of Triple tube barrel is to be used for recovering core to identify the rock and rock properties.

5 to 7 nos. of rock samples of 6 to 8 inch in size to be sent for megascopic and microscopic petrographic test and unconfined compressive test to be conducted as per IS-9143-1979.

Scope of work: In situ Permeability Test {IS: 5529-2 (2006)} & SE (CDO) Letter No.Geo/Misc/tech/c/5676,dt.01/12/1978

This test lays down recommendations for performing the pumping in permeability test, in which water is pumped under pressure into the test section, of bedrock through drill holes, wherein the sides of the hole do not collapse during the period of exploration and testing. Double packer method / single packer method to be used for conduction the test.

Core recovery should be arranged in the prescribed core boxes and to be preserved in core boxes. (Technical circular GOG No. MIS/1078/7478/K Dtd. 19.03.1987)

Geological report, Log sheet & L-Section should be prepared in prescribed Performa. Log sheet and L-Section to be prepared in AutoCAD Software as per prescribed Performa.

During drilling operation progressive litho log to be prepared as per attached log sheet.

The rate includes drilling 100 mm dia. The rate includes all recovery Labour machinery equipment's, transportation, stationary etc.

Drilling is required depth as per instruction by geologist or engineer-in-charge carrying out all treemy trots as described in the specifications bore holes, mobilization of machinery arrangements, water & labour required, collecting disturbed and undisturbed samples, preserving them in core boxes, transporting the same to laboratory etc.

It also includes providing the drill log sheet, providing the geological- L-section duly approved by the concerned geologist.

Rate shall be paid per meter depth of bore hole drilled and submission of log sheet with all requirements.

The final report shall be submitted in five copies and editable soft copy (AutoCAD, Excel/Word).

The rate includes all recovery labour machinery equipment's, transportation, stationary etc.

Item No.5

Carrying out soil investigation by drilling of 100 mm dia bore hole in all types of strata except Rock in dry and wet conditions wherever it is necessary by hydraulic feed diamond core drilling machine for the strata including performing standard penetration test as per IS: 2131 -1981 and IS 9640 - 1980 and collecting undisturbed soil samples as per IS : 1892-1979 in Shelby tube for the laboratory test including preparing and supplying samples at GERI / Govt. approved lab as per instruction of EIC Including providing Geological report, lithological log and "L" type geological cross section of alignment with geological log sheet of each trial bore etc as instructed by Geologist to be prepared in AutoCAD Software as per prescribed Performa.

Carrying out soil investigation by drilling of 100 mm dia. bore hole in all types of strata in dry and wet conditions with necessary machinery (hydraulic feed diamond core drilling machine as suggested by geologist) sites clearing of grass and trees wherever it is necessary, demarcation dam alignment by suitable required type of rig machine for that strata including performing standard penetration test and other in situ testing as well as collecting undisturbed soil samples for the laboratory test like permeability by constant and applied pressure, direct shear test, liquid limit, plastic limit, plasticity index, consolidation test, specific gravity test and S.B.C., chemical analysis and field test like dry density, grain size analysis including supplying samples at GERI Gandhinagar/ Vadodara and other Government approved laboratories including receiving the results from concern authorities and providing lithological log and "L" type geological cross section of alignment with geological log sheet of each trial bore etc. complete including sampling for rock testing

Geological survey and investigation include soil/ rock drilling and testing to determine the engineering properties of the catchment area of the scheme and the strata below the various components of the scheme (e.g. Dam/CD/ spillway, head regulator, canal and any other allied components covering Annexure-2). It also includes study of the locally available construction materials for the projects.

The consultant shall complete drilling, sampling procedure for the detailed geological investigation as per Annexure 2 (but not limited to) and as per instruction of Engineer in Charge.

Trial pits, trenches and quarry exploration shall be done in all sorts of soil including yellow, sandy and gravelly soil, soft murrum including uniform layers as and where directed etc. complete (without dewatering). The size of trial pits may be as per as per IS code 4453-2009 (The top of the pit is usually a square of size 3.00 M x 3.00 M and its bottom is also a square of 1.20 M x 1.20 M providing sufficient space) or so as directed by EIC. Measurements for actually work done by JCB per hour basis for excavated pits as per rates mentions in the price bid item no.1

The type of drilling machinery of triple core tube (item no.4) or hydraulic feed diamond core drilling machine (item no.5) as per site suggested by departmental geologist. Drilling activity should be started after conformation of main dam alignment by Engineer-In-Charge and type of drilling machinery by Departmental geologist.

The cost for collection and supplying all the samples at GERI Gandhinagar/ Vadodara and other Government approved laboratories shall also be included in the price offer and shall not be paid separately.

The payment of borehole drilling and sample collection for soil testing for detailed geological investigation is included in this bid.

The payments toward testing charges of all such collected samples for detailed geological investigation shall be made by the department and paid separately to the GERI/Soil testing laboratory and cost toward the same shall not be included in the price bid.

The cuttings brought up shall be carefully examined and soil descriptions duly recorded. Representative samples shall be preserved for laboratory testing. The borehole shall be drilled up to specified depth [i.e. up to 10m in soil (i.e. SPT N value greater than 100) or 5m in fresh rock whichever is earlier)

DRILLING SEQUENCE IN SOIL

0.0 to 0.45m Shelby-1 collected 45 cm, undisturbed sample

0.45 to 0.90m Shelby-2 collected 45 cm, undisturbed sample

0.90 to 1.20m Drilling 30 cm collected wash sample.

1.20 to 1.65m S.P.T. 1 (spoon test 45 cm, 15X15X15 cm blows)

1.65 to 2.0m Drilling 35 cm (collected wash sample)

This sequence is repeated up to rock level.

STANDARD PENETRATION TEST

The standard penetration tests are conducted in accordance with the same IS: 2131 -1981 and IS 9640 - 1980. The split spoon sampler resting on the bottom of borehole is allowed to sink under its own weight, and then the split spoon sampler is seated 15 cm with the blows of hammer falling through 750 mm, which is considered as seating load. The driving assembly consists of driving head and a 63.5 Kg. weight. It is ensured that the energy of the falling weight is not reduced by friction between the drive weight and the guides or between ropes. The rods to which the sampler is attached for driving are straight, tightly coupled and straight in alignment. Thereafter the split spoon sampler is further driven by 30 cm. The number of blows required to effect such 15 cm of penetration is recorded. The total blows required for the second and third 15 cm penetration is termed as a penetration resistance - N value. SPT test shall be conducted at approx. 1.5 m interval in the borehole.

COLLECTION OF UNDISTURBED SAMPLES

UNDISTURBED SAMPLES

Undisturbed samples are collected using thin walled sampler having 70 mm dia, 450 mm long from the bore holes at 1.00, 1.5 m & every change of stratum starting from 1.5 m below ground level or at 0.5 mt up to 3.00 mt depth and at every 1.0 m depth thereof up to 10.00 mt. onwards. The sampler used for the sampling are having smooth surface and appropriate area ratio and cutting edge angle as required by IS: 1892-1979 thereby minimizing disturbance of soil during sampling.

The sampling tube of steel having adequate strength, durability and resistance to corrosion is used. The sampling tube is round and smooth without bump and dents. The inside diameter and outside diameter of the sampling tube are such as to give the area ratio of 11.8 (IS: 2132 - 1986).

Sampler is coupled together with a sampler head to form a sampling assembly, the sampler head provides a non- flexible connection between the sampling tube and the drill rods, Vent holes are provided in the sampler head to allow escape of water from the top of sampler tube during penetration.

The sampling tubes are made free from dust and rust. Coating of grease is applied on both sides to obtain the undisturbed samples in best possible manner.

The sampler is then lowered inside the bore hole up to the depth of sampling on a string of drill rods. The sampler is then driven inside the soil strata with the help of a drop hammer of 65 kg falling from a height of approx. 75 cm. On completion of driving, the same is rotated within the borehole to shear the soil sample at bottom and then pulled out.

Upon removal of the sampling tube, the length of the sample in the tube is recorded. The disturbed material in the upper end of the tube, if any, is completely removed before applying the wax for sealing.

The soil at the lower end of the tube is reamed to distance of about 15 to 20 mm. After cleaning and inserting an impervious disc at each end, both ends are sealed with wax applied in a way that will prevent wax from entering the sample. The empty space in the sampler, if any, is filled with the moist soil, and the ends covered with tight wrapper. The identification mark is then made on each sample.

Collection of disturbed samples by Standard Penetration Test

The agency shall have to take samples at every 2.0mt interval and at every change of soil strata to carry out standard penetration test as per IS-2131-1981. If the 'N' value is more than 50, the penetration corresponding to 50 blow shall be recorded and presented in the report. One set of field data log sheet shall be sent in advance to the engineer-in-charge from site and the standard penetration No. (N-Value) for each 15 cm. Penetration shall be carried out as per latest IS-Code in presence & as per necessity

The rate includes drilling 100 mm dia. The rate includes all recovery Labour machinery equipment's, transportation, stationary etc.

Drilling is required depth maximum to 30 mt. or as per instruction by geologist or engineer-in-charge carrying out all treemy trots as described in the specifications bore holes, mobilization of machinery arrangements, water & labour required, collecting disturbed and undisturbed samples, preserving them in core boxes, transporting the same to laboratory.

It also includes providing the drill log sheet, providing the geological- L- section duly approved by the concerned geologist.

Rate shall be paid per meter depth of bore hole drilled and submission of log sheet with all requirements.

The final report shall be submitted in five copies and editable soft copy (AutoCAD, Excel/Word).

The rate includes all recovery labour machinery equipment's, transportation, stationary etc.

Item No.6

Preparation and submission of Feasibility Report for Approval of work as per Terms of Reference (TOR)

The feasibility report shall be prepared including the below mentioned (but not limited to) the following:

Feasibility Report (Considering Annexure 2) based on Hydrology Survey Hydrology study include catchment area, yield free catchment area & earlier storage capacity already created, Ground water study.

Consultant shall have to check feasibility of Big Check Dam/Recharge tank /Bandhara includes Earthen Dam/Bund, Waste Weir etc.

Feasibility Study (Considering Annexure 2)

- People/Farmer's demand
- Study of agriculture land & crops
- Hydrology study include catchment area, yield & free catchment area & earlier storage capacity already created on the river.
- Ground water study
- To derive the storage capacity requires for the proposed command area
- Storage capacity will be derived for different FRL/height of the hydraulic structure for each alternative
- Analyse the land requirements for Consultancy services for Big Checkdams / Bandhara / Medium Irrigation / Minor Irrigation / Protection Works /storage tank - Carryout assessments on availability of locally available various materials in tentative required quantities for various sub-components of proposed structure and work out preliminary cost estimate based on the most appropriate construction method/materials etc. and included in the feasibility report, considering aspects of operation and maintenance also.
- The report shall also include detailed assessment of requirement for private land, forest land, other Government land required for this project.
- After the submission of feasibility report and later to the approvals by department, subsequent activities prescribed in shall be taken up by the consultant.

(At the time of preparation of feasibility report various annexures to this bid document shall also be referred as subsequent activities of TOR shall be carried out following the Annexures)

Alternative opinion for the site of Big Checkdam or Bandhara or Medium Irrigation or Minor Irrigation or Protection Works or storage tank to be provided if and when required without extra charge.

The final report shall be submitted in five copies and editable soft copy (AutoCAD, Excel/Word).

The Payment of this item shall be made as per unit rate as per the accepted price offer. There will 80% payment will be paid after submission and remaining 20% payable after approval of reports by Engineer-In – Charge.

Item No.7

Preparation and submission of Design Report for Approval of work as per Terms of Reference (TOR)

Preparation of this report shall include detailed design as well as detailed Estimates and drawings considering Annexure 2 to 2 and/or applicable IS standard as the case may be.

The department shall provide test results of soil / geotechnical investigation for the sample collected from drilling / trial pit as per point no. 3 above.
